

Certified Cybersecurity Risk Management for Executives

Frequently Asked Questions

1. Why take this course?

Certified Cybersecurity Risk Management will assist your leadership team in understanding the risks they face and measures that can be taken to reduce risk exposure from a financial perspective.

2. How long will it take to complete the course?

The program is structured in six modules that can be taken all in a day or two, or stretched out to three months.

3. Is it mandatory to buy the book, “Enterprise Cybersecurity in Digital Business” by Ariel Evans?

No, It is not required to purchase the book, however, it is a handy resource that lists out the regulations by state, among other cybersecurity requirements. It is available on Amazon, for \$44.95, amzn.to/3KLI4aX

4. How much do other executive education programs cost?

The NCSS researched a number of programs, and comparable programs cost between \$4500 and \$7000.

5. If I have questions about the course and need help, who do I contact?

For questions about the course content or registration, contact Cyber Intelligence 4 You, at: patty@cyberintelu.com

For questions concerning membership to the NCSS or questions about a cyber incident, contact the NCSS at: me@nationalcybersecuritysociety.org

Specific questions concerning the course material, Friday mornings are devoted to a Q&A period with the instructor.
